

SEQPL Testimonial

Date: 10-4-16

Naftali and I would like to thank your team for your excellent assistance in purchasing and the complicated transportations of the bSolar equipment projects in Heilbronn.

Your helpful innovative and devoted solutions to issues we encountered, as well as alternative ideas are highly appreciated.

The communication and response to emails from you and your team was first class, especially when it came to outside of normal working hours and weekends.

We really appreciated your fairness, integrity, coordination and good management of the entire project and your willingness to help us even when it fell outside the scope of the project.

We look forward to working with you on future in any possible way !

With great honor and appreciation,

Avishai Drori, CEO

Prof. Naftali Eisenberg, CTO
